

Adit is hands down the most effective reporting system that I've used thus far in my years of dentistry. The analytics and reporting are far superior to the other reporting that I get out of Dentrix or anything else.

Corey Babka, Office Manager

Dental

King of Prussia, Pennsylvania

King of Prussia Family Dental Care

King of Prussia Family Dental Care saves 8–10 hours/week with Adit practice analytics

Challenges

- **Dentrix reports** were inconsistent & difficult to trust.
- **Front desk staff** spent 8–10 hours/week manually entering, correcting, and updating production data.
- **Dentrix lacked** the flexibility to customize reports.
- Other **analytics and reporting software** were too expensive.

Solutions

- **Production Reporting** to track monthly/yearly financial performance and see future scheduled revenue.
- **Morning Huddle** gives key daily performance insights quickly.
- **Recare Reporting** tracks patients due for continued care.
- **Visual Dashboards** help teams understand performance through charts and graphs.
- **Custom Date Ranges** analyze performance across any selected period.

Results

8–10
hours/week

Saved on manual reporting

20+
years

Replaced manual, static PDF reporting with sleek, easy-to-read dashboards

7X

Achieved ROI for every \$1 spent on Adit

\$10K
per year

Reduced in reporting-related labor costs

Gained confidence in production numbers with reporting that management trusts
