Lifeworks Dental

How Lifeworks Dental replaced 4 software systems with Adit and grew production 20%

| Challenges

- Managing multiple disconnected systems (**Weave, Dental Intelligence, Demand Force & Smile Reminder**)
- **Limited texting capabilities** for last-minute scheduling
- High software costs with **minimal integration**
- **Time-consuming** admin tasks like forms and scheduling
- **10% no-show rate** disrupting daily operations

| Solutions

- **Practice Analytics** helped Dr. Tran track performance and make faster, data-driven decisions
- **Mass Texting & Communication** let the team quickly fill openings and reduce front desk workload
- **Digital Patient Forms** streamlined the check-in process
- **Appointment Reminders** reduced no-shows and admin load

> Adit is the best dental software company out there. It offers everything other companies penny-pinch you for, and the support is amazing. Adit is the real deal. Give them a chance, and you'll see it too.
