

We looked at Mango too, but Adit offered more features at a better price. It's the only platform that truly has everything in one place for us: phones, texting, scheduling, reviews, and even insurance verifications.

Oviedo Dental Arts

Oviedo Dental Arts grows new patients by 25% after switching to Adit's all-in-one Platform

Challenges

- Used **Peerlogic** but wanted more features and a better price.
- Manual tasks like **reminders, insurance checks, and patient forms** slowed production and efficiency.
- **A high no-show rate** of around 30%.
- Staff couldn't easily listen to **calls or forward phone lines**.
- **Paper forms** slowed down intake and required extra data entry.

Solutions

- **Phones and Mobile App** call forwarding, recordings, on the go visibility
- **Two-Way Texting & Reminders** automated daily reminders reduce no shows
- **Online Scheduling** website booking that syncs with Open Dental
- **Digital Forms** iPad intake eliminates re-keying and scanning
- **Reviews** automatic post-checkout review requests via text
- **Insurance Verifications (RCM)** 15 to 20 minutes saved per patient
